The City of El Paso Investment Policy

1.0 POLICY

It is the policy of the City of El Paso, Texas (the “*City*”) to: (i) invest public funds in a manner which will provide maximum safety of principal and liquidity; (ii) provide the highest possible investment return; (iii) meet the daily cash flow demands of the City; and (iv) comply with the Texas Public Funds Investment Act of 1995, as may be amended (“*TPFIA*”) and local ordinances and resolutions governing the investment of the City’s public funds. Definitions and terms contained herein are defined in Section 2256.002 of TPFIA.

2.0 SCOPE

The City of El Paso Investment Policy (this “*Investment Policy*”) applies to all cash assets of the City as reported in the City’s *Comprehensive Annual Financial Report* except for those funds of the Public Employees Retirement System (PERS) and component units which are governed by other laws, statutes, and ordinances. Except for cash in certain restricted and special funds, the City will consolidate cash and reserve balances from all funds to maximize investment earnings and to increase efficiencies with regard to investment pricing, safekeeping and administration. The City’s Investment Strategy is attached as Exhibit “A” and is incorporated for all applicable purposes by reference herein. Investment income will be allocated in accordance with the City’s strategy for allocating interest to participating funds as set forth in Appendix “1” to Exhibit “A.”

The fund types covered by this Investment Policy are accounted for in the books and records of the City and are as follows:

- a. General Fund (which includes the Cash Reserve Fund);
- b. Special Revenue Funds;
- c. Capital Projects Funds;
- d. Debt Service Fund;
- e. Enterprise Funds;
- f. Internal Service Funds
- g. Fiduciary Funds

3.0 GENERAL OBJECTIVES

The primary objectives of the City's investment activities, in order of priority, shall be as follows:

3.1 Preservation and Safety of Principal

Preservation and safety of principal are the foremost objectives of the investment program. Investments of the City shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The objective will be to mitigate credit risk and interest rate risk.

- a. Credit risk. The City will minimize credit risk, which is the risk of loss due to the failure of the security issuer or backer, by:
 - (i) limiting investments to the types of securities listed in *Article 6.0* of this Investment Policy;
 - (ii) pre-qualifying the financial institutions, broker/dealers, intermediaries, and advisers with which the City will do business in accordance with *Article 5.0*; and
 - (iii) diversifying the investment portfolio so that the impact of potential losses from any one type of security or from any one individual issuer will be minimized.
- b. Interest rate risk. The City will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by:
 - (i) structuring the investment portfolio so that securities mature in a manner that cash requirements for ongoing operations will be met, thereby avoiding the need to sell securities on the open market prior to maturity; and
 - (ii) investing operating funds primarily in short-term securities, money market mutual funds, or similar investment pools and limiting the average maturity of the portfolio in accordance with *Section 9.2*.

3.2 Liquidity

The City's investment portfolio will remain sufficiently liquid to enable the City to meet all operating requirements that might be reasonably anticipated. To a large extent, liquidity shall be determined by the flow of revenues and expenditures predicted by the Office of the Comptroller using cash flow projections and historical data. These cash flow projections shall be at least one (1) year in length.

3.3 Yield

The City's investment portfolio shall be designed with the objective of attaining a rate of return/yield throughout budgetary and economic cycles, commensurate with the City's investment risk constraints and the cash flow characteristics of the portfolio. Return on investment is of secondary importance compared to the preservation and safety of principal and liquidity objectives described above. The City's core investments are limited to low risk securities in anticipation of earning a fair return relative to the risk being assumed. Securities shall generally be held until maturity unless otherwise deemed appropriate by the City Manager or his/her designee.

4.0 STANDARDS OF CARE

4.1 Delegation of Authority

The authority to manage the City's investment program is derived from the TPFIA, the El Paso City Charter, City Ordinances and Resolutions. The Chief Financial Officer, Comptroller, and Treasury Services Coordinator are designated as the Investment Officers who are responsible for investment transactions; provided, however, that in the event that any or all of the positions are or becomes vacant, the persons acting in such capacity shall be designated as an Investment Officer for the interim period. All investment procedures shall be in writing and approved by the Chief Financial Officer and the City Manager.

An Investment Committee shall be responsible for monitoring, reviewing, and making recommendations regarding the City's cash management and investment program. The Investment Committee will consist of the Chief Financial Officer, Comptroller, Treasury Services Coordinator, OMB Director, and the Chief Internal Auditor. The Investment Committee will report to the City Manager on at least a quarterly basis the activities of the City's investments.

The Comptroller will oversee the activities of the Treasury Division of the Office of the Comptroller Department, and if the Treasury Services Coordinator position is vacant, shall perform, or designate a person to perform, such duties on an interim basis. The Treasury Services Coordinator shall be responsible for the day-to-day financial transactions undertaken and shall establish a system of controls to regulate the activities of subordinate officials and staff. The Treasury Services Coordinator shall designate one or more staff as a pro tempore, acting in a limited capacity defined by the Treasury Services Coordinator, in the event circumstances require timely action and the Treasury Services Coordinator is not available.

No other officers or designees may engage in an investment or banking transaction except as provided under the terms of this Investment Policy and the procedures established.

4.2 Prudence

The City's investments shall be made with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the safety of capital and the yield to be derived. The standard of care to be used by Investment Officers shall be said "prudent person" standard and shall be applied in the context of managing an overall portfolio and whether the investment decision was consistent with the written investment policy of the City.

4.3 Training

The Investment Officer(s) shall attend at least one (1) training session from an independent source approved by City Council or a designated investment committee advising the Investment Officer(s) as provided for in this Investment Policy of the City and containing at least ten (10) hours of instruction relating to the officer's responsibilities under this Investment Policy and the TPFIA. Such training session shall be taken within twelve (12) months after the Investment Officer(s) takes office or assumes duties. The Investment Officer(s) shall attend an investment training session not less than once in each two-year period that begins on the first day of the City's fiscal year and consists of two consecutive fiscal years after that date and receive not less than ten (10) hours of instruction relating to investment responsibilities under this Investment Policy and the TPFIA from an independent source approved by the City Council or a designated investment committee advising the Investment Officer as provided for in the investment policy of the City. This training must include education in investment controls, security risks, strategy risks, market risks, diversification of investment portfolio, and compliance with TPFIA.

4.4 Ethics and Conflicts of Interest

Investment Officers involved in the investment process shall refrain from personal business activity that could conflict or be perceived to conflict with proper execution of the investment program, or that could impair their ability to make impartial investment decisions. An Investment Officer of the City who has a personal business relationship with a business organization offering to engage in an investment transaction with the City shall file a statement disclosing that personal business interest. An Investment Officer who is related within the second degree by affinity or consanguinity, as determined by Chapter 573 of the Texas Government Code, to an individual seeking to sell an investment to the City shall file a statement disclosing that relationship. A statement required under this *Section 4.4* must be filed with the Texas Ethics Commission and the City Council. For purposes of this *Section 4.4*, an Investment Officer has a personal business relationship with a business if:

- a. the Investment Officer owns ten percent (10%) or more of the voting stock or shares of the business organization or owns five thousand dollars (\$5,000) or more of the fair market value of the business organization;
- b. funds received by the Investment Officer from the business organization exceeds ten percent (10%) of the Investment Officer's gross income from the previous year; or
- c. the Investment Officer has acquired from the business organization during the previous year investments with a book value of two thousand five hundred dollars (\$2,500) or more for the personal account of the Investment Officer.

Investment Officers, not required by this *Section 4.4* to file a disclosure statement, will file a statement with the City Clerk's Office announcing no potential conflicts.

In accordance with Texas Government Code Chapter 2257.022 “Amount of Collateral”, the total value of eligible security to secure a deposit of public funds must be in an amount not less than the amount of the deposit of public funds:

- a. Increased by the amount of any accrued interest; and
- b. Reduced to the total extent that the United States or an instrumentality of the United States insures the deposit.

Collateralization % coverage will be outlined in the Collateral Agreement as part of the City’s Depository Agreement Contract with the awarded Banking Institution. All other on demand deposit accounts that are not included in the City’s Depository Agreement Contract will be required to adhere to the collateralization % coverage stated in the awarded depository contract.

7.2 Limits

The City chooses to limit the type of collateral required to the eligible security instruments identified in *Section 6.1* hereinabove.

7.3 Custody

Collateral will always be held by an independent third party Custodian with whom the City has a current custodial agreement. A clearly marked evidence of ownership (e.g., safekeeping receipt) must be supplied to the City and retained. The right of collateral substitution may be granted to Custodian with prior written approval of the Investment Officer(s).

The Custodian shall be approved by the City and be:

- a. a state or national bank that is designated by the state comptroller as a state depository and has its main office or branch office in the State of Texas and has a capital stock and permanent surplus of \$5 million or more;
- b. the Texas Treasury Safekeeping Trust Company;
- c. a Federal Reserve Bank or a branch of the Federal Reserve Bank; or
- d. a federal home loan bank.
- e. a financial institution authorized to exercise fiduciary powers and that is designed by the comptroller as a custodian pursuant to Government Code 404.031(e)

8.0 SAFEKEEPING AND CUSTODY

8.1 Delivery vs. Payment

All security transactions, including collateral for repurchase agreements, entered into by the City shall be conducted on a delivery-versus-payment (DVP) basis to ensure that securities are deposited in an eligible financial institution prior to the release of funds.

8.2 Safekeeping

Securities will be held by a third party custodian designated by the Treasury Services Coordinator as evidenced by safekeeping receipts in the City's name. The safekeeping institution shall provide, annually, a copy of their most recent report on internal controls (Reporting on Controls at a Service Organization as per Statement on Standards for

Attestation Engagements No. 16, or SSAE 16 issued by the American Institutes of Certified Public Accountants or AICPA).

8.3 Electronic Funds Transfer

The City may use electronic means to transfer or invest all funds collected or controlled by the City.

9.0 INVESTMENT PARAMETERS

9.1 Portfolio Diversification

Risk of principal loss in the portfolio as a whole shall be minimized by diversifying investment types according to the following limitations:

<u>Investment Type</u>	<u>% of Portfolio</u>
• U.S. Treasury Notes/Bonds/Bills	100%
• U.S. Agencies	75%
• Municipal Bonds	75%
• Certificates of Deposit	50%
• Share Certificates	5%
• Repurchase Agreements	50%
• Money Market Mutual Funds	15%
• Local Government Investment Pools	80%
• Commercial Paper	15%

This Investment Policy incorporates the City's Investment Strategy and as such, will allow for diversification of investments to the extent practicable considering yield, collateralization, investment costs, and available bidders. Diversification by investment institutions shall be determined by an analysis of yield, collateralization, investment costs, and available bidders. Diversification by types of securities and maturities may be as allowed by this Investment Policy and the TPFIA.

9.2 Maximum Maturities

To the extent possible, the City will attempt to match its investments with anticipated cash flow requirements. However, the maximum maturities for any single investment shall not exceed three (3) years. The maximum dollar-weighted average maturity for the City's overall investment portfolio will not exceed two (2) years.

9.3 Effect of Loss of Required Rating

This Investment Policy requires certain minimum ratings of certain investments. At least weekly, the Treasury Services Coordinator will review the ratings of each of the investments in the City's portfolio that require a minimum rating and will notify the Investment Committee of any negative changes. In the event an investment does not meet that minimum rating during the period that the investment is being held by the City, that investment does not qualify as an authorized investment. The City shall take all prudent measures that are consistent with this Investment Policy to liquidate an investment that does not have the minimum rating.

10.0 MONITORING AND REPORTING

10.1 Content of Report

The Investment Officer(s) shall submit, not less than quarterly, a report to the City Manager, Mayor and City Council, with a copy provided to the City Clerk. Said report shall:

- a. describe in detail the investment position of the City on the date of the report;
- b. be prepared jointly by all Investment Officers of the City;
- c. be signed by each Investment Officer of the City;
- d. contain a summary statement of each pooled fund group that states the:
 - (i) beginning market value for the reporting period;
 - (ii) ending market value for the period; and
 - (iii) fully accrued interest for the reporting period;
- e. state the book value and market value of each separately invested asset at the end of the reporting period by the type of asset and fund type invested;
- f. state the maturity date of each separately invested asset that has a maturity date;

- g. state the account or fund or pooled group fund in the state agency or local government for which each individual investment was acquired; and
- h. state the compliance of the investment portfolio of the City as it relates to:
 - (i) the Investment Strategy expressed in the City's investment policy; and
 - (ii) relevant provisions of Chapter 2256 of the Government Code.
- i. be submitted within forty-five (45) days after the end of the period.

10.2 Annual Audit

If the City invests in other than money market mutual funds, investment pools or accounts offered by its depository bank in the form of certificates of deposit, or money market accounts or similar accounts, the reports prepared by the Investment Officer(s) under this Section 10.0 shall be formally reviewed at least annually by an independent external auditor, and the result of the review shall be reported to the City Council by that auditor.

10.3 Compliance Audit

In conjunction with the City's annual financial audit, the external auditor shall perform a compliance audit of management controls on investments and adherence to the City's established investment policy. This audit shall provide reasonable assurance that assets are safeguarded against loss from unauthorized use or disposition and that those transactions are executed in compliance with policies and procedures established by this Investment Policy.

11.0 INVESTMENT POLICY ADOPTION

This Investment Policy is intended to amend and restate the existing City investment policies. The City's Investment Policy shall be reviewed and adopted annually by resolution of the City Council. Any modifications must first be approved by the Investment Committee and City Manager; secondly, be approved and recommended to City Council for approval by the City's Financial Oversight and Audit Committee that is assigned oversight of financial matters, and subsequently adopted by City Council.

EXHIBIT A

INVESTMENT STRATEGY

The City's investment strategy establishes the investment objectives of each of the fund types identified in the City's Investment Policy based on the needs and characteristics of each of the funds. These encompass the following criteria in order of importance:

- a. understanding of the suitability of the investment to the financial requirements of the entity;
- b. preservation and safety of principal;
- c. liquidity;
- d. marketability of the investment if the need arises to liquidate the investment before maturity;
- e. diversification of the investment portfolio; and
- f. yield.

The City is not in the investment business as a primary means of earning revenue. Therefore, the City will not participate in active buy/sell management of the portfolio. The Investment Officer(s) will invest for specific maturities to meet the cash needs of the City. The cash available and the cash requirements for the City will be determined on a day-to-day basis by the Office of the Comptroller Department and reported to the Investment Officer(s). Cash required within ten (10) days will be invested in overnight repurchase agreements, an approved mutual fund, or an approved investment pool in order to assure immediate liquidity. Interest earned on "overnight" investments listed above will be included in the total of interest revenue to be allocated to those primary funds having both an investable equity in pooled cash and a right to earn interest based on the City's Investment Policy. To enhance liquidity, investments will be purchased but not individually or formally associated with a specific primary fund's equity in pooled cash. Any cash in excess of immediate needs (more than 10 days) will be invested in longer term investments based on the needs and restrictions associated with specific fund's equity in pooled cash, and upon prudent consideration of current market yields and trends. Interest revenue will be allocated to those funds designated by this policy based on the allocation strategy at Appendix 1 to this Exhibit.

SPECIFIC CITY FUNDS

- a. General Fund
The General Fund is the primary operating fund of the City in which most activity occurs. Cash requirements are large and immediate. Investments will be made with highly liquid instruments to mature on specific dates particularly to meet payroll requirements. These investments will most frequently be of durations of less than six (6) months. Specific investments identified as appropriate are, but not limited to, U.S Treasury bills, U.S. Treasury notes, repurchase agreements, certificates of deposit, and investments in mutual funds. Cash reserves in the General Fund are established by Section 7.4 of the City Charter and are to be maintained in an amount no less than five percent (5%) of the prior year's adopted general fund operating expenditure budget. The interest on this cash reserve shall be transferred to the City's Capital Acquisition Sub fund that is a definable component of the Capital Project Fund. This cash reserve is also available for short-term lending to other funds of the City for

periods not greater than one (1) year. For emergency liquidity purposes, up to twenty-five percent (25%) of the cash reserve shall be in investments with maturities no greater than one (1) year. Specific investments identified as appropriate for maturities no greater than one (1) year are, but not limited to, treasury bills, treasury notes, repurchase agreements, certificates of deposits, and mutual funds. The remaining seventy-five (75%) of the fund shall be in investments with maturities greater than one (1) year. In order to maximize yield, these investments may be in treasury bonds. If funds lent from this fund earn interest in another fund, the interest shall be transferred to the cash reserve balance, and then transferred to the City's Capital Acquisition Sub fund.

b. Special Revenue Funds

Special Revenue Funds are used to fund special operating accounts and finance capital projects and include but are not limited to, projects funded by Federal and State grants. There will rarely be an investable equity balance in these funds. However, should the nature of the grants provide for "up front" funding and require allocation of interest income to the cash balances in the grants, specific investments identified as appropriate are the same as those identified above for the General Fund.

c. Capital Projects Funds

Capital Projects Funds are generally funded by debt instruments and other revenue sources issued or obtained by the City. Investment activity for each debt instrument may be segregated if required by law to determine if any arbitrage rebate liability may exist. Investments will be based on cash flow estimates recommended by the City's Capital Improvement Plan Director, with the approval of the Chief Financial Officer. Based on these approved recommendations, the Chief Financial Officer will estimate cash requirements and maturities for each project. The Investment Officers will then make investments to meet the cash flow requirements for each project. Interest earnings first will be recorded in the Capital Projects Fund. If interest proceeds remain in the Capital Projects funds after the project(s) is completed, these proceeds may be transferred to the appropriate debt service project in the Debt Service Fund to extinguish the debt whose proceeds are being invested in accordance with bond covenants. Specific investments identified as appropriate are, but not limited to, treasury bills, treasury notes, repurchase agreements, certificates of deposit, mutual funds, investment pools, and treasury bonds.

d. Debt Service Fund

Debt Service Fund projects are established for each debt instrument issued by the City to record revenues and expenditures related to the extinguishment of the debt through timely payment of principal and interest. The primary source of money is from property taxes and specifically pledged revenues. Investments will have a maturity of no more than one (1) year in order to meet the periodic payments as required. Specific investments identified as appropriate are, but not limited to, investment pools, mutual funds, treasury bonds, treasury bills, and certificates of deposit.

e. Enterprise Funds

Enterprise Funds are for the operational and capital needs of the El Paso International Airport (except the Passenger Facility Charge), the Mass Transit Department (Sun Metro), the International Bridges, Tax Office and Environmental Services Department. Investments may be of longer maturities based on projected cash flow requirements. Specific investments identified as appropriate are, but not limited to, investment pools, mutual funds, treasury bonds, treasury bills, and certificates of deposit.

f. Internal Service Funds

Internal Service Funds are extensions of the General Fund which are to be operated with minimal cash reserves for exigencies and, therefore, should have minimal cash balances. An Internal Service Fund that accumulates and maintains a positive cash balance in excess of One Hundred Thousand Dollars (\$100,000) will be allocated investment earnings.

g. Fiduciary Funds

Investments related to Fiduciary Funds will be made by the City as specified in the Fiduciary Fund's agreement, if applicable. Daily earnings on Fiduciary Funds will be credited to the General Fund to offset the cost of maintaining these funds.

APPENDIX 1 TO EXHIBIT A

Strategy for Allocating Interest to Participating Funds

ALLOCATION OVERVIEW

Allocable interest income is the interest received for the period adjusted for accretion/amortization of investments purchased at a discount/premium as well as any bank charges incurred while pursuing a strategy of maximizing the yield on available cash. Allocable interest will be distributed ratably to particular funds based on the ratio of a fund's net pooled cash to the total net pooled cash of all participating funds. A participating fund is one that is eligible to earn interest revenue as discussed below because the fund maintains an overall positive net cash position for the period. The interest allocation is credited to the funds by a journal entry to debit Pooled Cash and credit Investment Interest Revenue.

For Enterprise Funds, "net cash" in pooled cash is the average daily balance maintained for the period by the combined Enterprise Funds by type. A fund's deficit in cash will be offset with its related funds' surpluses in cash. To the extent that there is an overall deficit for the combined funds the Enterprise Fund will be excluded from the interest allocation for that period.
