-- CRRMA NOTICE --

**EL PASO STREETCAR PROJECT
RFP – RAIL VEHICLE PROCUREMENT**

MAY 2, 2015

Through Addendum No. 2, the Camino Real Regional Mobility Authority (CRRMA) has revised Appendix A – Technical Specifications to increase the clearance height requirements associated with certain State highway crossings. Accordingly, the CRRMA hereby provides notice to all interested parties that the due date for the Responses to the Request for Proposals will be extended from the original date of May 7, 2015.

In development of the new Response Due Date, the CRRMA solicits input regarding extended due dates from interested parties. Should you be interested in providing such input, please forward your comments to the RFP's point of contact: Raymond L. Telles at tellesr@crrma.org. In either event, the CRRMA will provide the new Response Due Date, via a posting on the Procurements Page of the CRRMA's website (www.crrma.org), on or before May 7, 2015.

[END OF NOTICE]
