-- CRRMA NOTICE --

**EL PASO STREETCAR PROJECT
RFP – RAIL VEHICLE PROCUREMENT**

APRIL 30, 2015

The Camino Real Regional Mobility Authority (CRRMA) has posted Addendum No. 2 to the Procurements Page of the CRRMA website (www.crrma.org). Among the other revisions made through the issuance of this Addendum No. 2, please also note the following:

- The form of Addendum No. 2 was simplified from the form utilized with Addendum No. 1. Because fewer sections were revised than in Addendum No. 1, only those sections that contain revisions were reissued in order for Proposers to more easily locate those items that have been modified.
- The majority of the revisions made through this Addendum No. 2 reflect the CRRMA responses to the second round of questions received. The CRRMA's answers were issued April 23, 2015 and can also be found on the Procurements Page of the CRRMA website. This Addendum No. 2 memorializes the responses that affected the RFP documents.
- One revision was made to Appendix A – Technical Specifications to meet a clearance height requirement over some state highway routes.
- Addendum No. 1, which can be found on the Procurements Page of the CRRMA website, was incorrectly identified as Addendum No. 2 on page CP 1-I of that document. This error has been corrected in the Addendum No. 2 issued today.

[END OF NOTICE]
